EXPLANATION OF HARD TIMES.

Mr. Jones, of Nevada, then proceeded to address the Senate in continuation of the sneech begun by him lest week, this being the third instalment of it. He said that he had been asked to explain what hard times meant. He would say that "hard times" meant falling prices, meant monetary illeness, meant an increasing number of people in insane asylums and prisons, meant an unearned increment to the creditor, and uniust exaction from the debtor, and meant the discouragement of all business enterprises and projects.

Mr. Jones argued at great length to show that there never had been too much money, gold or silver, in the world, and that the value of money was not, as Mr. Sherman had contended, dependent upon the quantity. His argueres and foreible, and re-EXPLANATION OF HARD TIMES.

He argued that, even under the operation of the Sherman act, the supply of money was less than the wants of the country required, and declared that the repeal of that law would be one of the worst crimes that could be committed against society.

A MATTER PERSONAL Mr. Harris, rising to a matter personal to himself, related the particulars of an interview had with him some days ago by the reporter of a New York journal. When he read the report of it, he realized that either he had made-a very trackless rategrant or that the reporter bungling statement, or that the reporter had utterly failed to comprehend it. He had been represented as indulging in a event that he should rule a given way on a given question. Another New York journal had taken the interview up, and had put him in the absurd attitude of declaring that the Vice-President would be killed in his sent if he dared to rule in a given way on a given question.

He simply desired to say that he had made no such utterance, and that no conclusion from what he did say could be drawn more absurd and untrue, tests in the Senate were contests tests in the Senate were contests of rea-son, not of the prize-ring. They were contests of interfect and of reasonable tests of interfect and other character. He disclaimed utterly the brutalities attributed to him. FEDERAL TREASURY FACTS.

Gold Reserve Decrease-General Government Deficit at Hand.

(By telegraph to the Dispatch.) WASHINGTON, October 21.-The Treasury "ten-days" statement, issued to-day, shows that the gold reserve has decreased to \$81,700,000, the lowest point it has ever reached, and a loss for the month of October of \$12,000,000. It is believed, however, that from now until the end of the month the gold reserve will climb up, as the currency now in process of redemption will become unlocked and available for use.

become unlocked and available for itse. While this has been tied up, the Treasury has been paying out gold freely, which accounts in some measure for its decrease. Another reason for its decrease is that the customs payments in New York have not been paid so largely in gold as during September, although gold was practically the only money paid out by the treasury in New York. This gold had found its way into the banks. One year by the treasury in New York. This gold had found its way into the banks. One year ago the gold reserve stood at \$123,429,000. The customs receipts at New York have been paid as follows: Gold coin, 42.5 per cent.; silver coin, 61 per cent.; gold certificates, 0.1 per cent.; silver certificates, 25.4 per cent.; United States notes, 19.9 per cent.; United States Treasury notes, 11.0 per cent. The customs receipts at New York for the first twenty days of this month aggregated \$5,038,000, as against \$6,942,000 for the corresponding periol of last year, and a proportionate decrease in customs at other ports throughout the ships month of the corresponding period of last year, and a proportionate decrease in customs at other ports throughout the country is shown by the reports received. The falling off in the revenues is clearly shown by the official statement that since the beginning of the present fiscal year the expenditures of the Treasury have exceeded the receipts \$22,000,000, which will be increased when the October interest is taken out of the cash, to the extent of twenty-seven or twenty-eight millions of holiars.

These figures bear out Secretary Cartisle's estimates that at the end of June next the delicit will amount to from fifty to sixty million dollars.

The pension payments continue heavy, \$5,642,000, out of a total expenditure so far this month of \$20,625,000, being on that account. It will require probably three more millions to meet the requirements for pensions this month.

Postmaster-General Bissell has had pre-pared from the records of his department a statement showing the postal receipts at the Treasury and the sub-Treasuries of the government during the first two weeks in October, 1832. For the first period the receipts were \$1.372.138, and for the corresponding period hast year, \$1,727,-230, showing the surprising decrease for the two weeks of \$65,322.

The Postmaster-General is of the opta-font that the remarkable falling off in postal receipts is due solely to the dis-turbed financial condition of the country.

WASHINGTON, October 21.-There were es about the Capitol to-day over the news that a compromise on the financial bill had been agreed to, and the belief is general that it will be accepted by the senate. The details are given elsewhere, and it is hardly necessary to add that the Virginia and North Carolina senators are in favor of the settlement on the basis proposed. With the possible exception of General Ransom, none of the Virginia and North Carolina senators have ever favored unconditional repeal, and it is doubtful if Senator Ransom would have voted for anything that would put the country on a gold basis.

The chairmen are as follows: On Education, Dr. E. A. Hopkins; Publication, Dr. H. M. White; Work for Colored People, Dr. T. W. Hooper; Systematic Beneficience, Dr. W. C. Campbell; Sabbath, Rev. S. K. Winn; Foreign Missions, Rev. J. R. Bridges; Home Missions, Dr. W. T. Hall; Arrangements, Dr. A. M. Martin.

THE STATE OF RELIGION. THE STATE OF RELIGION.

Dr. W. C. Campbell read the narrative of the state of religion in the churches. The following, among other points, are presented: The attendance upon public worship is generally good. The most of the churches exhibit healthful growth, and some have had special seasons of revival. Thurch members are reported as unusually consistent and active in church work.

The Rabbath is generally well observed.

Neglect of catechetical home instruction and of family worship is to be lamented. The committee to whom the last resolution of the report on home missions have neglected the following which was adopted:

The paper was, therefore, referred to a committee to report at the next meeting, Dr. White being made chairman.

FOREIGN MISSIONS. The report on foreign missions was adonted. The synod agrees to raise its nortion of the \$150,000 asked for by the assembly. The report commends the obnortion of the \$150,000 asked for by the assembly. The report commends the observance of the monthly conduct for prayer, children's day, and circulating missionary libraries. Churches are asked to undertake the support of individual missionaries. An increased circulation of The Missionary is urged. Dr. M. H. Houston, who goes to China, and Rev. W. H. Shepperd, who returns to Africa, are commended to the watchful care of the great head of the Church. C., October 21. - After the great storm of August 27th, which greatly damaged the phosphate industry of the State, the Phosphate Commission made a State, the Phosphate Commission made a proposition to reduce the royalty from §1 to 60 cents per ton on the rock on hand and to be mined before January 1, 1894, the miners to pay only a total royalty of \$75,000 in 1894. This proposition was made to relieve the miners of part of their loss by the storm and to enable them to get on force tends.

oot again.
In a letter, received from the miners by Governor Tillman to-day, they ask that the State reduce the royalty to 50c. per ton for a period of not less than five years, and intumate that if this concession is not granted mining operations will not be re-sumed. The miners say they cannot af-

ford to pay more.

Governor Tillman, Chairman of the State
Board of Phosphate Commissioners, replied
to the miners to-day, declining to grant
the concession asked for, as the Phosphate
Commission has aiready made as just and liberal a proposition as could be reasonably expected. Should mining operations not be re-

sumed, however, it will be a serious mat-ter for the State, since the income from the royalty on phosphate rock heretofore has been about \$250,000, and is pledged for interest on the public debt.

NEW YORK STOCK MARKET. NEW YORK, October 21.—The bulls in stocks met with a slight repulse at the opening of business to-day, but all strug-gles against them were in vain, and for the remainder of the session they did what they pleased with the market. In the first sales Lackawanna and St. Paul were comparatively weak. London quotations were a shade lower, and this affected international stocks.

For the moment sentiment is bullish, and sentiment makes the market in Wali street. Purchases of stocks are based on the belief that the repeal of the compulsory silver-purchase act is now a matter of very little time. The great acmatter of very little time. The great ac-cumulation of money at this centre, the New York city banks now holding \$42,-649,775 above the legal requirements, against a deficit of \$16,545,275 on August 12th last, is not without effect on prices. To employ this prodigious volume, the

To employ this prodigious volume, the banks must cut down rates of interest, and this of necessity will aid those operating for higher prices.

To-day the active stocks rose 4, to 34, per cent. Manhattan advanced 34; Delaware and Hudson, 24; Sugar, 14; Laka Shore, 14; and Jersey Central, 14. Lackaryana, after dealings to 157, week at 120. wanna, after declining to 157, rose to 189%, and receded to 159% and 180. The rise in American Sugar was due to unconfirmed reports that the company would pay an extra dividend at the close of the calendar year. Among the specialties New York, Lackawanna and Western rose 74, and Chicago Gas, 4½.

The market closed strong, with an advancing tendency. Total sales were 94,-900 shares. Treasury balances: Coin. \$54.152.000: currency, \$9,504,000.
